Letter of Appeal Federal Communications Commission Office of the Secretary 9300 East Hampton Drive Capitol Heights, MD 20743

Thomas A. Snyder 9300 Merrimac Trail Williamsburg, VA 23185 Phone: (757) 887-0225 Fax: (757) 887-0340

E-Mail tsnyder@merrimac-center.net

Dear Madam or Sir.

This letter of appeal is being submitted in accordance with the guidelines on the Schools and Libraries website and corresponds with the specific requested information:

- Identify which FCD Letter you are appealing: Funding Commitment Decision Letter, dtd April 24,2002
- Applicant Name: Merrimac Center, Thomas A. Snyder
- Farm **471** Application Number: **292735**
- Billed Entity Number: 209234
- Identify the particular Funding Request Number (FRN) that is the subject of your appeal: 749591
- Re: CC Docket Nos. 96-45 and 97-21

New information has been provided to us regarding the use of an existing contract as a "bid" for Form 470 filing. According to the information provided, the FCC made a ruling an November 4,2002 that allows the use of an existing contract as a bid. We are reappealing this funding request based upon the new ruling.

- Explain your appeal to the SLD:
 - o FRN **749591:** Funding Commitment Decision Explanation: The circumstances surrounding the tiling of the Form **470** associated with **this funding** request violated the intent of the bidding process.
 - O Appeal: The funding request mentioned above was submitted for our facility's telephone system maintenance contract. This very same funding request was approved in Funding Year Three on FRN: 328422. Funding Year Four we were denied on FRN: 599166, which we planned to appeal, but missed the appeal deadline. Again, in Funding Year Five we've been denied funding on FRN: 749591.

The service maintenance agreement covers all of the components which comprise our facility's digital telephone system. The phone System was under warranty for the first year of its use beginning 08/18/1997. The non-warranty period began 10/01/98. We filed a Form 470 590010000263742 for our first submission of this request in Funding Year Three (which was approved). Following the submission of this Form 470 we waited the 28 day waiting period, we evaluated other service providers and determined this contract best suited our needs. Subsequently we used the existing contract as the bid. This holds true until today.

Attached is a copy of our telephone maintenance contract with Sprint. The contract, **K98-015**, remains effective until 9/30/03.

Also attached is a letter from our Sprint Account Executive stating no more than 15% of the contract's cost goes toward telephone handset maintenance.

Please feel free to contact me with any questions you may have concerning this appeal.

Respectfully,

Thomas A Snyder
Assistant Director-Support Services

Mr. Tom Snyder MERRIMAC CENTER-Middle Penn Juvenile Detention Center 9300 Merrimac Trail Williamsburg, VA 23185

Dear Mr. Snyder:

As per our conversation earlier today, Sprint does not break down maintenance pricing on a line item basis. However, I can guarantee you that the phone sets themselves comprise no more than 15% (if that much) of the total maintenance price. I hope this information serves your purpose as it relates to the erate-funding program.

Regards,

Tim Patterson

Account Executive
